

Chiropractic Business OS Client Onboarding Packet

1. Welcome

Thank you for choosing the Chiropractic Business OS. This setup is designed to help your practice track patient inquiries, follow up consistently, and review weekly practice activity with less uncertainty.

The goal is to make setup simple, organized, and low-disruption for your team.

This setup does not replace or modify your EHR, scheduling, billing, or insurance systems.

2. What You Purchased

- Patient Inquiry Tracker
- Follow-Up Dashboard
- Weekly Practice Summary
- Practice Performance Dashboard
- CSV Exports
- Staff Training

3. Implementation Timeline

- Day 1: Setup
- Day 2: Data Import
- Day 3: Training
- Day 4: Go Live

4. What We Need From You

- Existing inquiry data, if available
- Main contact person
- Training attendees

5. Support

- Setup support
- Training support
- Monthly review guidance

6. Success Tips

- Track every inquiry
- Update statuses consistently
- Review follow-ups weekly

During the first week, the focus is simply getting every inquiry entered and every follow-up visible.
