

Chiropractic Business OS FAQ

Is this an EHR?

No. It is a lightweight inquiry and follow-up dashboard for practice-owner visibility.

Does it handle scheduling or billing?

No. Scheduling, billing, payments, and EHR features are intentionally excluded from this MVP.

Can it use real patient data?

The current demo uses fake data. Production use would require appropriate hosting, access controls, policies, and compliance review.

Who is it for?

Solo and small chiropractic practices that need a clearer way to track inquiries and follow-ups.

What does it cost?

Starter Demo Setup starts at \$500, Practice Launch starts at \$1,500, and Workflow Polish starts at \$3,000.

Prepared for Chiropractic Business OS outreach. Demo data should remain fake unless a production compliance plan is in place.
