

Chiropractic Business OS: One-Page Offer

Headline

Turn chiropractic patient inquiries into booked consultations and active patients with a simple practice dashboard.

Problem

Patient inquiries often arrive from Google, referrals, insurance questions, website forms, and phone calls, but follow-up tracking can get scattered across notes, inboxes, and memory.

Solution

A lightweight dashboard that tracks patient inquiries, follow-up dates, active patients, estimated treatment value, and weekly practice performance without replacing an EHR or scheduling system.

Deliverables

- Patient inquiry intake form
- KPI dashboard
- Follow-up tracking
- Weekly Practice Summary
- Practice Performance Snapshot
- Patient-friendly CSV exports
- Chiropractic demo sample data

Pricing

- Starter Demo Setup: \$500
- Practice Launch: \$1,500
- Workflow Polish: \$3,000

Call To Action

Book a 20-minute walkthrough to see how the practice can prevent missed follow-ups and understand estimated treatment value.

Prepared for Chiropractic Business OS outreach. Demo data should remain fake unless a production compliance plan is in place.
