

Chiropractic Business OS: FAQ

Does this replace my EHR?

No. Your EHR remains the clinical source of truth. This focuses on tracking inquiries in one place and improving follow-up consistency.

Does this schedule appointments?

No. It helps your team see who needs follow-up so your existing scheduling process can happen with better context.

Is this billing or insurance software?

No. It does not handle billing, claims, eligibility, or insurance workflows.

Who This Is For

- Solo chiropractors
- Small chiropractic practices
- Offices using spreadsheets
- Practices struggling with follow-up consistency

What This Is Not

- Not an EHR
- Not billing software
- Not insurance software
- Not scheduling software

Why not just use spreadsheets?

Spreadsheets can work. This adds a clearer Practice Performance Dashboard, weekly summary, follow-up urgency, and patient-friendly exports.

Does it guarantee more revenue?

No. It helps improve visibility and follow-up consistency so the practice can act on missed opportunities sooner.
